

Guardian® ClimaGuard®

THE IDEAL GLASS THAT
ENHANCES RESIDENTIAL AND
SMALL COMMERCIAL SPACES

OPEN TO BEAUTIFUL

NATURAL VIEWS!

A successful lifestyle is determined by how comfortably and well you live. And a happy home is one which is always full of joy, light and comfort. Reason why, when it comes to glass for your homes, nothing but the best should do.

Introducing Guardian® ClimaGuard® for the first time in India. It is a globally renowned and highly appreciated range of aesthetically enchanting and energy efficient glass products that are sure to delight one and all. This range of impeccable glass solutions is the perfect choice for residential projects as well as many commercial purposes too.

Guardian® ClimaGuard® offers five exceptional product ranges designed to enhance your homes and lifestyles.

- Guardian® ClimaGuard® Blue
- Guardian® ClimaGuard® Clear
- Guardian® ClimaGuard® Green
- Guardian® ClimaGuard® Grey
- Guardian® ClimaGuard® Bronze

Why choose Guardian® ClimaGuard® ?

Guardian® ClimaGuard® products look stunning from the outside due to their impeccable shade. Allowing ample entry of light without compromising on interior ambiance, these products also protect interiors from the sun's heat that causes overheating. This glass reduces cooling load and at the same time cuts down harmful UV rays to protect it from fading.

Moreover, the user can enjoy clear views of the outside world no matter the colour of the glass.

Guardian® ClimaGuard® products offer better benefits and more features than a conventional clear float, hard-coat or tinted glass product.

Rest assured, projects that are adorned with Guardian® ClimaGuard® will always earn the admiration of homeowners inside and audiences on the outside.

Features:

Mesmerising shades

Stunning shades that leave audiences spellbound

Beautiful views

Enjoy clear and natural outside views along with natural entry of light unlike tinted or hard-coat products

Enhanced occupant comfort

Leads to better living experience

Low internal reflection in comparison to hard-coat

Ensures that the occupant can enjoy beautiful outside views throughout the day

Optimum light transmission

Allows optimum transmission that creates soothing ambiance inside

Excellent solar protection

Protects from solar heat and ensures interior spaces remain cool and comfortable

Energy efficient

Saves on energy, lowers cooling load and gives faster payback

Durability

Highly durable coating that can be heat treated, bent, laminated or ceramic fritted
